Greetings, New Bison!

As a proud graduate of Howard University's doctoral class of 2005, I'm immensely honored to welcome you to the Bison family.

2020 has been recorded in the annals of history as one of the most challenging, disruptive years of the century. It has been a year of unprecedented personal sacrifice and accomplishment, perseverance and success through struggle, all leading you to this moment in time.

That you've made it to this day in 2021 is a testimony of your strength of character and resolve to succeed against all odds. Proof positive that you have what it takes to be Bison Ready.

As a fellow Bison, I'm excited that you've chosen Howard University to be your home for the next two to four years. I'm honored to be afforded the opportunity to play an integral role in your overall development throughout your matriculation. These next four years will go by at lightning speed. Before you know it, you'll be planning for graduation and the transition to graduate school or into the career of your choosing.

Remember that time spent cannot be recovered. So, be intentional about how you spend your time. Make every day of these years matter. Utilize every resource that is made available to you. Grab hold of every opportunity that comes your way, because before you know it, you'll be shouting with Bison pride, "I came in Bison Ready and became Bison Strong because I persevered, now, I am Mecca Made, equipped and positioned to change the world."

New Bison, this is your moment in time. Seize it and go forward like the champs that your are.

Welcome to Howard University!
