

The Center for Tutoring & Learning Support Services' Math and Science Studios are now available and are led by TLSS' **BISON Tutors**. These *Studios* are interactive and interdisciplinary small-learning communities that provide overview of key principles for the respective subject of each *Studio*. Additionally, these *Studios* are designed to promote community, and community-building, to help alleviate feelings of academic-isolation during the COVID-19 Pandemic. Studios are inclusive of lecture, and individual or small group tutoring, based on weekly participation.

For more information, please contact Dr. Joycelyn L. Hughes at joycelyn.hughes@howard.edu.

MONDAYS
4:00 PM - 6:00 PM
